8 SOUTH AFRICAN NATIONALS - Welkom - South Africa, 26-27 October 1996

12 Competitors - 1 Nation - WRL Factor 0.70

The event was hosted by the Flamingo YC in conjunction with the OFSSA Champs for Laser, Finn, Gypsy with 2 470s in open class. Wnd conditions were most favourable except for race 4 when a highvelv thunderstorm brought a sudden 20 min 2sual of Bft 7 which obviously caused a lot

of havoc. The change from orce 3 to 7 occurred in less than 20 seconds and obviously caught many boats unaware. One mast was broken, RSA-262, but with a little ingenuity was spliced to complete the regatta.

Nigel Trevarthen

SPANISH CHAMPIONSHIP - Murcia - Spain, 31-3 November 1996

13 Competitors - 6 Nations - WRL Factor 0.70

Having struggled with lack of water for several years this year's Spanish Championship was easily the best one for a long time, with an excellent international - 6 countries - participation. No doubt some were reconnoitring the site of next years European Championship ! It was a most pleasant surprise to see the enthusiastic teener Gergely Galántha , crewed by his father from Hungary winning in a borrowed boat. No mean feat. Our President, Ian McCrossin on his way to the ISAF meeting in Brighton, also took part with Dougie Rawson-Harris of Goldspar fame, in a boat also made available by the spanish FD class. This attitude in the Class shows it's health and that the FD is going to do well. Credit for arranging the boats (I know what job it is ! Ed.) should go to Rafael Iturrioz, our ever enthusiastic Mediterranean Commodore.

ATTENTION

Is your **Measurement Certificate valid** ? That means a certificate in the owners name.

YOU NEED it to take part in regattas.

IFDCO NEEDS it to keep records up to date. That is important for the existence of the Class as the ISAF (International Sailing Federation) regularly wants data to see if the Class still meets the requirements for international status.

Send the old MC or your details and boat number to the IFDCO Registration Office and we will make you one.

This service is free. For address Registration Office see page 31.
